VVZ-GYM005-3-T Small gymcenter

The small rope gymcenter is a compact climbing structure comprising three different sections – overhead rings, climbing bars and a rope climbing net. This structure offers a variety of climbing, traversing and obstacle-based activities while allowing several children to play together at the same time. The individual play elements naturally support the development of agility, movement coordination, strength and overall physical fitness. The supporting structure is made of steel with a durable powder-coated finish. The polyester ropes offer high strength and resistance to mechanical stress and weathering. Stainless-steel fasteners contribute to a long service life in outdoor environments.

Specifications

The Small gymcenter VVZ-GYM005-3-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	2.40 x 1.30 x 2.10 m (L x W x H)
Max. Fall Height:	up to 2.00 m
Safety Surfacing Area:	6.20 x 5.10 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, polypropylene ropes, stainless steel fasteners
Weight:	70 kg
