Large gymcenter
VVZ-GYM008-T

VVZ-GYM008-T Large gymcenter

The large rope gymcenter is an extensive climbing structure comprising a wide range of play elements – two climbing walls, two rope climbing nets, two sets of climbing bars, two sets of three ropes with balance discs and four central HPL crawl-through elements. This structure offers a wide variety of climbing, traversing, obstacle and balancing activities while allowing a larger number of children to play together at the same time. The varied play elements naturally support the development of agility, balance, movement coordination, strength and overall physical fitness. The supporting structure is made of steel with a durable powder-coated finish. The polyester ropes offer high strength and resistance to mechanical stress and weathering. The HPL climbing walls, balance discs and other HPL elements, together with stainless-steel fasteners, contribute to a long service life in outdoor environments.

Specifications

The Large gymcenter VVZ-GYM008-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	8.80 x 2.20 x 2.20 m (L x W x H)
Max. Fall Height:	up to 2.00 m
Safety Surfacing Area:	12.60 x 6.00 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, polypropylene ropes, HPL, stainless steel fasteners
