

Single-Tower Combined Play Structure - Tall with Tunnel VVZ-VZ1-008-15-T

VVZ-VZ1-008-15-T Single-Tower Combined Play Structure - Tall with Tunnel

A single-tower combined play structure featuring a tower with ramparts, which children can climb via steps and descend using the slide. Children can also play in the tunnel located underneath the tower. Its striking design invites play even from a distance. The steel structure is weather-resistant thanks to galvanising and a durable powder-coated finish. The HPL material used is chemically resistant, UV-resistant - colorfast, non-toxic, recyclable, and shatter-resistant. This eliminates the risk of injury to children from sharp edges or fragments. All joints are made of stainless steel and covered with plastic protective caps to increase durability and safety.

Specifications

The Single-Tower Combined Play Structure - Tall with Tunnel VVZ-VZ1-008-15-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	4.10 x 1.00 x 3.60 m (L x W x H)
Max. Fall Height:	up to 1.50 m
Safety Surfacing Area:	7.70 x 4.00 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, LDPE, corrugated pipe, stainless steel fasteners
Weight:	290 kg
