

Single-Tower Combined Play Structure - Tall with Swing VVZ-VZ1-006-1-10-T

VVZ-VZ1-006-1-10-T Single-Tower Combined Play Structure - Tall with Swing

This single-tower combined play structure features a tower with ramparts, which children can climb via steps or a climbing wall with handholds, and descend using the slide. The play structure also includes a swing beam with a Classic or Baby seat. Its striking design invites play from a distance. The steel structure is weather-resistant thanks to galvanising and a durable powder-coated finish. The HPL material used is chemically resistant, UV-resistant - color-stable, non-toxic, recyclable, and resistant to breakage. This prevents children from being injured by sharp edges or fragments. All joints are stainless steel and covered with plastic protective caps to increase durability and safety.

Specifications

The Single-Tower Combined Play Structure - Tall with Swing VVZ-VZ1-006-1-10-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	3.00 x 4.50 x 3.10 m (L x W x H)
Max. Fall Height:	up to 0.99 m
Safety Surfacing Area:	6.90 x 6.00 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, LDPE, rubber, stainless steel fasteners and chains
