

Single-Tower Combined Play Structure - Tall with Tunnel VVZ-VZ1-008-10-T

VVZ-VZ1-008-10-T Single-Tower Combined Play Structure - Tall with Tunnel

This single-tower combined play structure features a tower with battlement panels that children can climb up via steps and descend from using the slide. Children can also play inside the tunnel located beneath the tower. Its striking design invites children to play from a distance. The steel structure is weather-resistant thanks to galvanising and a durable powder-coated finish. The HPL material used is chemically resistant, UV-resistant, colorfast, non-toxic, recyclable, and shatter-resistant, so there is no risk of injury from sharp edges or fragments. All joints are made of stainless steel and covered with plastic protective caps for increased durability and safety.

Specifications

The Single-Tower Combined Play Structure - Tall with Tunnel VVZ-VZ1-008-10-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	3.20 x 1.00 x 3.10 m (L x W x H)
Max. Fall Height:	up to 0.99 m
Safety Surfacing Area:	6.50 x 4.00 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, LDPE, polypropylene rope, Corrugated, stainless steel fasteners
