

Double-Tower Combined Play Structure - Tall VVZ-VZ2-001-10-T

VVZ-VZ2-001-10-T Double-Tower Combined Play Structure - Tall

Double-tower combined play structure - two towers connected by a tunnel. Children climb up to the structure using steps or a ladder and can descend via the slide. Its distinctive design invites play from a distance. The steel structure is weather-resistant thanks to galvanising and a durable powder-coated finish. The HPL material used is chemically resistant, UV-resistant - color-stable, non-toxic, recyclable, and resistant to breakage. This prevents children from being injured by sharp edges or fragments. All joints are made of stainless steel and covered with plastic protective caps to increase durability and safety.
