

Double-Tower Combined Play Structure - Tall VVZ-VZ2-003-10-T

VVZ-VZ2-003-10-T Double-Tower Combined Play Structure - Tall

This double-tower combined play structure features two towers connected by a tunnel. Children can climb up via one of two climbing walls with handholds, a climbing net, or a ladder, and descend on one of two slides. The bold design invites children to play from a distance. The steel structure is weather-resistant thanks to galvanising and a durable powder-coated finish. The HPL panels used are chemically resistant, UV-resistant - color-stable, non-toxic, recyclable, and resistant to breakage, preventing injury to children from sharp edges or fragments. The ropes are made of polyester fibers wound around a central reinforcement. This rope construction increases strength and resistance to mechanical wear. Polyester itself is resistant to microorganisms and weathering, dries quickly after rain, is color-stable, and offers high strength. All joints are made of stainless steel and covered with plastic protective caps to increase durability and safety.

Specifications

The Double-Tower Combined Play Structure - Tall VVZ-VZ2-003-10-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	4.80 x 3.00 x 3.10 m (L x W x H)
Max. Fall Height:	up to 0.99 m
Safety Surfacing Area:	8.10 x 6.30 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, LDPE, polypropylene rope, stainless steel fasteners
