

Double-Tower Combined Play Structure - Tall VVZ-VZ2-004-10-T

VVZ-VZ2-004-10-T Double-Tower Combined Play Structure - Tall

This double-tower combined play structure features two towers connected by a rope bridge. Children can climb up via one of the two climbing walls with handholds, a climbing net, or a ladder, and descend using one of the two slides. Its striking design invites children to play from a distance. The steel structure is weather-resistant thanks to hot-dip galvanising and a durable powder-coated finish. The HPL material used is chemically resistant, UV-resistant, colorfast, non-toxic, recyclable, and shatter-resistant, so children are not at risk of injury from sharp edges or fragments. The ropes are made of polyester fibers wound around a central reinforcement. This rope construction increases strength and resistance to mechanical wear. Polyester itself is resistant to microorganisms and weathering, dries quickly after rain, is colorfast, and offers high strength. All connections are stainless steel and covered with plastic protective caps to increase durability and safety.

Specifications

The Double-Tower Combined Play Structure - Tall VVZ-VZ2-004-10-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	5.40 x 3.00 x 3.10 m (L x W x H)
Max. Fall Height:	up to 0.99 m
Safety Surfacing Area:	8.80 x 6.30 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, LDPE, polypropylene rope, stainless steel fasteners
