

Double-Tower Combined Play Structure - Tall VVZ-VZ2-008-10-T

VVZ-VZ2-008-10-T Double-Tower Combined Play Structure - Tall

Double-tower combined play structure - two towers connected by a tunnel. Children can climb up using the climbing wall with handholds, the ladder, the steps, or the arch rope net, and come back down via one of two slides. Its striking design invites children to play from a distance. The steel structure is weather-resistant thanks to galvanising and coating with durable powder paint. The HPL material used is chemically resistant, UV-resistant - colorfast, non-toxic, recyclable, and shatter-resistant. This eliminates the risk of injury to children from sharp edges or fragments. The ropes are made of polyester fibers wound around a central reinforcement. This rope construction increases its strength and resistance to mechanical stress. Polyester itself is resistant to microorganisms and weather influences, dries quickly, is colorfast, and features high strength. All joints are stainless steel and covered with plastic caps to increase durability and safety.

Specifications

The Double-Tower Combined Play Structure - Tall VVZ-VZ2-008-10-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	4.80 x 3.20 x 3.10 m (L x W x H)
Max. Fall Height:	up to 0.99 m
Safety Surfacing Area:	8.10 x 6.50 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, LDPE, polypropylene rope, stainless steel fasteners
