

Double-Tower Combined Play Structure - Tall VVZ-VZ2-011-10-T

VVZ-VZ2-011-10-T Double-Tower Combined Play Structure - Tall

This double-tower combined play structure features two towers connected by a rope balance bridge. Children can climb up via steps, a sloped or vertical climbing wall with handholds, or a climbing net, and come back down on one of the two slides. The striking design invites children to play from a distance. The steel structure is weather-resistant thanks to galvanising and a durable powder-coated finish. The HPL panels used are chemically resistant, UV-resistant, color-stable, non-toxic, recyclable, and shatter-resistant, preventing injury from sharp edges or broken fragments. The ropes are made of polyester fibers wound around a central reinforcement, a construction that increases their strength and resistance to mechanical wear. Polyester itself is resistant to microorganisms and weathering, dries quickly after rain, is colorfast, and offers high strength. All joints are made of stainless steel and covered with plastic protective caps to enhance durability and safety.

Specifications

The Double-Tower Combined Play Structure - Tall VVZ-VZ2-011-10-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	4.10 x 2.70 x 3.10 m (L x W x H)
Max. Fall Height:	up to 0.99 m
Safety Surfacing Area:	7.10 x 6.10 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, LDPE, polypropylene rope, stainless steel fasteners
