

Combined Four-Tower Play Structure - Tall VVZ-VZ4-002-10-T

VVZ-VZ4-002-10-T Combined Four-Tower Play Structure - Tall

Combined four-tower play structure. Two towers with ramparts and two low towers are connected by a diagonal rope wall, a rope bridge, and two tunnels. The structure includes steps, a sloped climbing wall, a climbing pole, a sloped rope net, ladders, and two slides. Its striking design invites children to play from afar. The steel structure is weather-resistant thanks to galvanising and a durable powder-coated finish. The HPL material used is chemically resistant, UV-resistant - color-stable, non-toxic, recyclable, and resistant to breakage. This means there is no risk of children being injured by sharp edges or fragments. The ropes are made of polyester fibers wound around a central reinforcement. This rope construction increases its strength and resistance to mechanical wear. Polyester itself is resistant to microorganisms and weathering, dries quickly after rain, is color-stable, and features high strength. All joints are made of stainless steel and covered with plastic protective caps to increase durability and safety.

Specifications

The Combined Four-Tower Play Structure - Tall VVZ-VZ4-002-10-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	5.70 x 3.80 x 3.10 m (L x W x H)
Max. Fall Height:	up to 0.99 m
Safety Surfacing Area:	9.00 x 7.00 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, LDPE, corrugated pipe, polypropylene rope, stainless steel fasteners
