

Seven-Tower Combined Play Structure - Tall VVZ-VZ7-001-10-T

VVZ-VZ7-001-10-T Seven-Tower Combined Play Structure - Tall

A seven-tower combined play structure. The main tower with battlements and six low towers are connected by a rope bridge, a rope balance bridge, a diagonal rope wall, and tunnels. The structure includes steps, a sloped climbing wall with rope, a vertical climbing wall, a sloped rope net, a counting frame, a tic-tac-toe panel, and five slides. The distinctive design invites children to play from a distance. The steel structure is weather-resistant thanks to galvanising and a durable powder-coated finish. The HPL material used is chemically resistant, UV-resistant - color-stable, non-toxic, recyclable, and resistant to breakage. This eliminates the risk of injury to children from sharp edges or fragments. The ropes are made of polyester fibers wound around a central reinforcement. This rope construction increases its strength and resistance to mechanical wear. Polyester itself is resistant to microorganisms and weathering, dries quickly after rain, is colorfast, and features high strength. All joints are stainless steel and covered with plastic protective caps to increase durability and safety.

Specifications

The Seven-Tower Combined Play Structure - Tall VVZ-VZ7-001-10-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	8.10 x 9.40 x 3.10 m (L x W x H)
Max. Fall Height:	up to 0.99 m
Safety Surfacing Area:	11.40 x 13.00 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, LDPE, HDPE, corrugated pipe, polypropylene rope, stainless steel fasteners
