

Seven-Tower Combined Play Structure - Tall VVZ-VZ7-002-10-T

VVZ-VZ7-002-10-T Seven-Tower Combined Play Structure - Tall

A seven-tower combined play structure. Four towers with battlements and three low towers are connected by a rope bridge, a rope balance bridge, and a diagonal rope wall. The structure includes steps, a sloped climbing wall, a sloped climbing wall with rope, a vertical climbing wall, a sloped rope net, a vertical rope net, and five slides. Its striking design invites children to play from a distance. The steel structure is weather-resistant thanks to galvanising and a durable powder-coated finish. The HPL material used is chemically resistant, UV-resistant - color-stable, non-toxic, recyclable, and shatter-resistant, so there is no risk of injury to children from sharp edges or splinters. The ropes are made of polyester fibers wound around a central reinforcement. This rope construction increases its strength and resistance to mechanical wear. Polyester itself is resistant to microorganisms and weathering, dries quickly after rain, is color-stable, and offers high strength. All joints are made of stainless steel and covered with plastic protective caps to increase durability and safety.

Specifications

The Seven-Tower Combined Play Structure - Tall VVZ-VZ7-002-10-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	10.60 x 6.90 x 3.10 m (L x W x H)
Max. Fall Height:	up to 0.99 m
Safety Surfacing Area:	13.70 x 10.90 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, LDPE, corrugated pipe, polypropylene rope, stainless steel fasteners
