

Nine-Tower Combined Play Structure - Tall VVZ-VZ9-001-10-T

VVZ-VZ9-001-10-T Nine-Tower Combined Play Structure - Tall

Nine-tower combined play structure. Four towers with battlements and five low towers are connected by rope bridges, balance rope bridges, and diagonal rope walls. The structure includes steps, a vertical climbing wall, a vertical climbing net, a tic-tac-toe panel, an abacus, and seven slides. Its striking design invites children to play from a distance. The steel structure is weather-resistant thanks to hot-dip galvanising and a durable powder-coated finish. The HPL material used is chemically resistant, UV-resistant and color-stable, non-toxic, recyclable, and shatter-resistant, so there is no risk of injury from sharp edges or splinters. The ropes are made of polyester fibers wound around a central reinforcement. This rope construction increases its strength and resistance to mechanical stress. Polyester itself is resistant to microorganisms and weathering, dries quickly after rain, is color-stable, and offers high strength. All joints are made of stainless steel and covered with plastic protective caps to increase durability and safety.

Specifications

The Nine-Tower Combined Play Structure - Tall VVZ-VZ9-001-10-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	10.60 x 9.40 x 3.10 m (L x W x H)
Max. Fall Height:	up to 0.99 m
Safety Surfacing Area:	13.70 x 13.20 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, LDPE, corrugated pipe, polypropylene rope, stainless steel fasteners
