

Single-Tower Combined Play Structure - Low VVZ-VZP1-003-10-T

VVZ-VZP1-003-10-T Single-Tower Combined Play Structure - Low

The single-tower combined play structure is accessible to children via steps and a climbing wall. They can get back down via the slide. The structure also features an abacus panel made of HPL material. This material is chemically resistant, UV-resistant, colorfast, non-toxic, recyclable, and shatter-resistant. This eliminates the risk of injury to children from sharp edges or splinters. The steel structure is weather-resistant, thanks to galvanising and a durable powder-coated finish. All fasteners are made of stainless steel and covered with plastic protective caps to increase durability and safety.

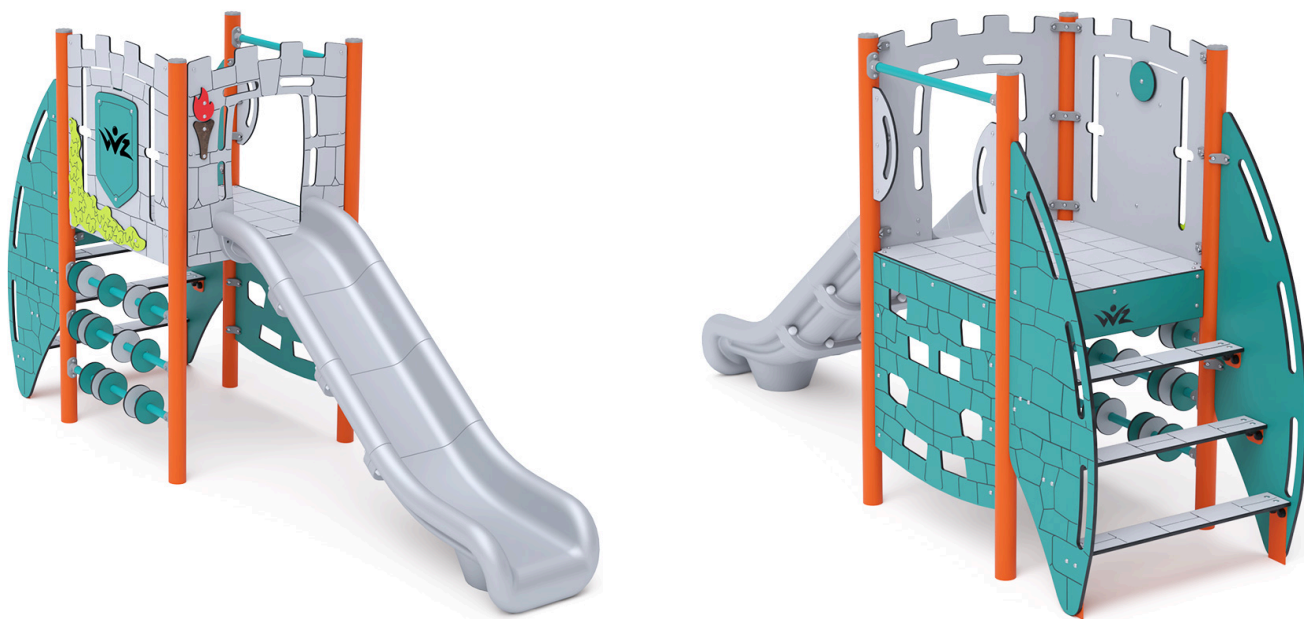

Specifications

The Single-Tower Combined Set - Low VVZ-VZP1-003-10-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	3.50 x 1.00 x 1.90 m (L x W x H)
Max. Fall Height:	up to 0.99 m
Safety Surfacing Area:	6.60 x 4.00 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, LDPE, PA, stainless steel fasteners
