VVZ-VZP2-002-10-T Double-Tower Combined Play Structure - High

The double-tower combined play structure - two towers connected by a tunnel. Children can access the structure via steps, a ladder, and a climbing wall. They can get back down via the slide. The steel structure is weather-resistant, thanks to galvanising and a durable powder-coated finish. The HPL material used is chemically resistant, UV-resistant, colorfast, non-toxic, recyclable, and shatter-resistant. This eliminates the risk of injury to children from sharp edges or splinters.
