VVZ-OP1-07-T Monkey trail – Balance stones

The monkey trail with balance stones creates a series of moving steps that challenge children's balance, coordination and stability. As they progress from one stone to the next, children must respond to their movement and continuously control their body position. The HPL balance stones are secured with strong polyester ropes resistant to mechanical stress and weathering. The steel structure with a durable surface finish, together with stainless-steel fasteners, ensures high durability and a long service life in outdoor environments.
