

Two-part monkey trail VVZ-OP2-05-T

VVZ-OP2-05-T Two-part monkey trail

The double monkey trail combines a balance bar with freely suspended balance stones. While moving along the narrow bar, children hold onto suspended ropes, developing balance, coordination and arm strength, while crossing the moving stones challenges stability and confidence in movement. The combination of both sections creates a varied balancing route that naturally engages the whole body. The steel structure with a durable surface finish, strong polyester ropes and stainless-steel fasteners ensures high durability and a long service life in outdoor environments.
