

Two-part monkey trail VVZ-OP2-07-T

VVZ-OP2-07-T Two-part monkey trail

The double monkey trail combines a balance walkway with HPL steps featuring animal tracks and a vertical rope net. Moving across the suspended steps develops balance, stability and coordination while introducing children to the tracks of different animals. The rope net adds a climbing challenge focused on upper-body strength and overall agility. The steel structure with a durable surface finish, strong polyester ropes and stainless-steel fasteners ensures high durability and a long service life in outdoor environments.
