VVZ-OP3-04-T Three-part monkey trail

The triple monkey trail combines balance stones, a balance walkway with HPL steps featuring animal tracks and a balance bar. Moving across the suspended elements naturally develops balance, stability, coordination and overall agility. The HPL steps with animal tracks add a playful learning element, while the balance bar develops confidence during sideways movement. The steel structure with a durable surface finish, strong polyester ropes and stainless-steel fasteners ensures high durability and a long service life in outdoor environments.
