

Four-part monkey trail VVZ-OP4-04-T

VVZ-OP4-04-T Four-part monkey trail

The quadruple monkey trail combines a swinging rope, moving HPL climbing panels, a high rope net and freely suspended balance stones. The individual sections provide opportunities for balancing, swinging and climbing while naturally developing strength, coordination, stability and overall agility. Alternating between different physical activities creates a varied route that engages the whole body and challenges confidence in movement. The steel structure with a durable surface finish, together with stainless-steel fasteners, ensures high durability and a long service life in outdoor environments
