

Seesaw VVZ-PHP006-T

VVZ-PHP006-T Seesaw

The greatest fun always comes with a friend, which is why every playground should include a seesaw. It helps children learn to cooperate while also developing coordination and motor skills. This version of the seesaw can rotate around its own axis, giving children even more fun and play value. When selecting products for a playground, the choice of materials plays a key role, as it has a major impact on the playground's service life. That is why we focus on high-quality materials, careful installation, and compliance with all applicable standards.
