

## Seesaw VVZ-PHP007-T

### VVZ-PHP007-T Seesaw

The most fun always comes with a friend. That's why a seesaw should be part of every playground. It helps children not only learn to cooperate, but also improve coordination and develop their motor skills. This version of the seesaw can rotate around its own axis, giving children even more fun. When selecting products for a playground, the choice of materials also plays an important role, as it has a major impact on the playground's service life. That is why we focus on quality materials, careful installation, and compliance with all applicable standards.

### Specifications

The Seesaw VVZ-PHP007-T is certified according to STN EN 1176

|                               |                                                                                                                             |
|-------------------------------|-----------------------------------------------------------------------------------------------------------------------------|
| <b>Age Group:</b>             | 3-14 years                                                                                                                  |
| <b>Product Dimensions:</b>    | 4.10 x 0.35 x 1.20 m (L x W x H)                                                                                            |
| <b>Max. Fall Height:</b>      | up to 0.99 m                                                                                                                |
| <b>Safety Surfacing Area:</b> | 8.10 m (according to STN EN 1176-1)                                                                                         |
