

Spring Rocker Clover VVZ-SH007

VVZ-SH007 Spring Rocker Clover

The materials and construction of the clover-themed spring rocker guarantee long service life and safety. The steel spring with a durable surface finish and HPL panels ensure long-lasting durability, color stability, and safety. The HPL material is chemically resistant, UV-resistant, non-toxic, recyclable, and resistant to breakage. This eliminates the risk of children being injured by sharp edges or fragments. Spring rockers can be installed on grass, a gravel or sand playground surface, or a grass mat, rubber mat, or EPDM surface can be used underneath the rocker. All spring rockers meet the safety standard STN EN 1176.

Specifications
