VVZ-PYR050-T Rope pyramid – 5m

The 5 m rope pyramid creates a striking focal point within the playground and its extensive three-dimensional net allows a larger number of children to play at the same time. Multiple levels and climbing routes provide varied challenges while naturally developing strength, coordination, balance, endurance and overall agility. The polyester ropes offer high strength and resistance to mechanical stress and weathering. The steel structure with a durable surface finish, together with stainless-steel fasteners, ensures high durability and a long service life in outdoor environments.
