

Medium tunnel play structure – Panda VVZ-TU002-2

VVZ-TU002-2 Medium tunnel play structure – Panda

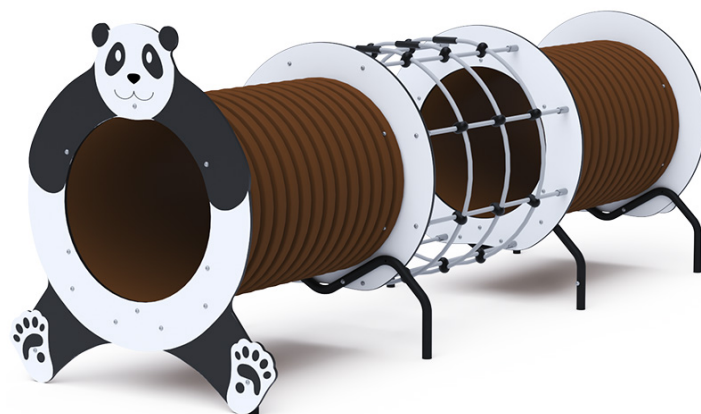

This play product in a panda design with a plastic tunnel is our medium version in this series of play products. The play structure consists of two tunnels connected by a rope tunnel. The themed design stimulates children's imagination. The front and rear graphic panels are made of HPL panels, which guarantee long service life, colorfastness, and safety. The HPL material is environmentally friendly, chemically resistant, UV-resistant, non-toxic, recyclable, and resistant to breakage. This means there is no risk of children being injured by sharp edges or fragments. The ropes are made of polyester fibers wound around a central reinforcement. This rope construction increases its strength and resistance to mechanical wear. Polyester itself has many positive properties: it is resistant to microorganisms, weather-resistant, dries quickly after rain, is colorfast, and offers high strength. The fasteners are made of stainless steel.

Specifications

The Medium tunnel play structure – Panda VVZ-TU002-2 is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	3.90 x 1.10 x 1.30 m (L x W x H)
Max. Fall Height:	up to 0.99 m
Safety Surfacing Area:	6.90 x 3.90 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, polypropylene rope, corrugated pipe, stainless steel fasteners
