

Medium tunnel play structure – Beehive VVZ-TU002-3

VVZ-TU002-3 Medium tunnel play structure – Beehive

This play product, designed in the shape of a beehive with a plastic tunnel, is the medium-sized version in this series of play products. The play structure consists of two tunnels connected by a rope tunnel. The themed design stimulates children's imagination. The front and rear graphic panels are made of HPL panels, ensuring long service life, color stability, and safety. The HPL material is environmentally friendly, chemically resistant, UV-resistant, non-toxic, recyclable, and resistant to breakage. This eliminates the risk of injury to children from sharp edges or fragments. The ropes are made of polyester fibers wound around a central core. This rope construction increases its strength and resistance to mechanical wear. Polyester itself has many positive properties: it is resistant to microorganisms and weathering, dries quickly after rain, is colorfast, and offers high strength. The fasteners are made of stainless steel.

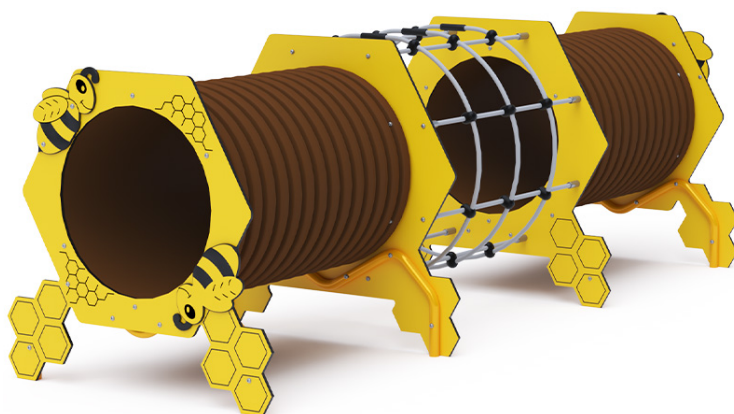

Specifications

The Medium tunnel play structure – Beehive VVZ-TU002-3 is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	3.90 x 1.10 x 1.30 m (L x W x H)
Max. Fall Height:	up to 0.99 m
Safety Surfacing Area:	6.90 x 3.90 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, polypropylene rope, corrugated pipe, stainless steel fasteners
