

Long tunnel play structure – Beehive VVZ-TU003-3

VVZ-TU003-3 Long tunnel play structure – Beehive

This play product in a beehive design with a plastic tunnel is our large-scale version from this series of play products. The play structure consists of three tunnels connected by two rope tunnels. The themed design stimulates children's imagination. The front and rear graphic panels are made of HPL panels, which guarantee long service life, color stability, and safety. The HPL material is environmentally friendly, chemically resistant, UV-resistant, non-toxic, recyclable, and shatter-resistant, so there is no risk of children being injured by sharp edges or fragments. The ropes are made of polyester fibers wound around a central core. This rope construction increases its strength and resistance to mechanical stress. Polyester itself has many positive properties: it is resistant to microorganisms and weathering, dries quickly after rain, is color-stable, and offers high strength. The fasteners are made of stainless steel.

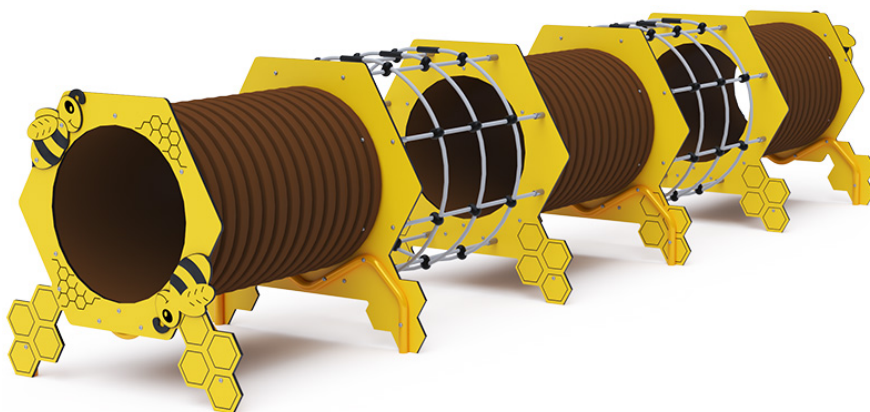

Specifications

The Long tunnel play structure – Beehive VVZ-TU003-3 is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	6.60 x 1.10 x 1.30 m (L x W x H)
Max. Fall Height:	up to 0.99 m
Safety Surfacing Area:	9.70 x 3.90 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, polypropylene rope, corrugated pipe, stainless steel fasteners
