

Curved tunnel play structure – Octopus VVZ-TU004-1

VVZ-TU004-1 Curved tunnel play structure – Octopus

This play product in an octopus design with a plastic tunnel is our large-size version within this series of play products. The play structure consists of three tunnels connected by two rope tunnels. The themed design stimulates children's imagination. The front and rear graphic panels are made of HPL panels, which guarantee long service life, colorfastness, and safety. HPL panels are environmentally friendly, chemically resistant, UV-resistant, non-toxic, recyclable, and resistant to breakage. This means there is no risk of children being injured by sharp edges or fragments. The ropes are made of polyester fibers wound around a central core. This rope construction increases its strength and resistance to mechanical wear. Polyester itself has many positive properties: it is resistant to microorganisms and weathering, dries quickly after rain, is colorfast, and features high strength. Fasteners are made of stainless steel.

Specifications

The Curved tunnel play structure – Octopus VVZ-TU004-1 is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	6.50 x 1.50 x 1.30 m (L x W x H)
Max. Fall Height:	up to 0.99 m
Safety Surfacing Area:	9.50 x 4.50 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, polypropylene rope, corrugated pipe, stainless steel fasteners
