

Multi-height tunnel play structure – Octopus VVZ-TU005-1

VVZ-TU005-1 Multi-height tunnel play structure – Octopus

This play product with an octopus design and a plastic tunnel is our large-scale version within this series of play products. The play structure consists of three tunnels at two different heights, connected by two rope tunnels. The themed design stimulates children's imagination. The front and rear graphic panels are made of HPL panels, ensuring long service life, color stability, and safety. HPL material is environmentally friendly, chemically resistant, UV-resistant, non-toxic, recyclable, and resistant to breakage. This eliminates the risk of injury to children from sharp edges or fragments. The ropes are made of polyester fibers wound around a central core. This rope construction increases its strength and resistance to mechanical stress. Polyester itself offers many positive properties: it is resistant to microorganisms and weathering, dries quickly after rain, is color-stable, and features high strength. Fasteners are made of stainless steel.

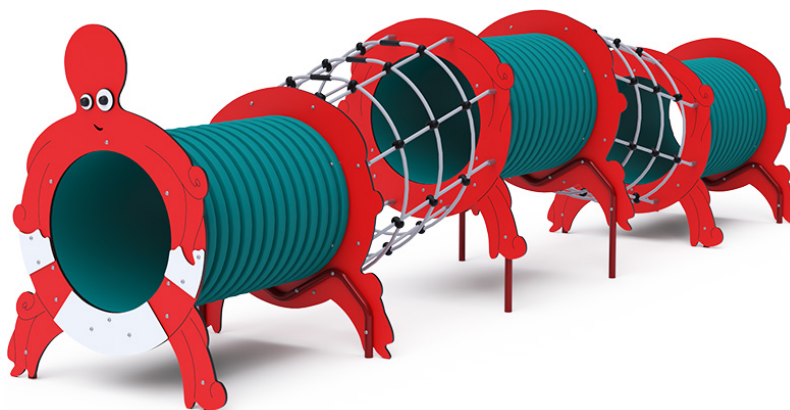

Specifications

The Multi-height tunnel play structure – Octopus VVZ-TU005-1 is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	6.60 x 1.10 x 1.50 m (L x W x H)
Max. Fall Height:	up to 0.99 m
Safety Surfacing Area:	9.70 x 3.90 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, polypropylene rope, corrugated pipe, stainless steel fasteners
