VVZ-VH001-15-T Hanging Swing

The swing with a Standard seat is a popular playground element that naturally supports the development of balance and coordination. The durable rubber seat with aluminium reinforcement provides stable and comfortable seating, while its rounded edges enhance safety during use. A grass safety mat is recommended as the impact-attenuating surface. Stainless-steel chains and the steel structure with a durable surface finish provide high resistance to weather conditions for long-term outdoor use.
