# Sandpit 2 × 2 m with a cover
# VVZ-PD011-T

**VVZ-PD011-T Sandpit 2 × 2 m with a cover**

This maintenance-free sandpit with a surface area of 2 × 2 metres features a 10 mm thick perimeter HPL strip to prevent sand from spilling outside. A pattern with geometric shapes is displayed on the side panel. The sandpit cover is made of a 15 mm thick HPL board featuring a children's motif. The sandpit cover can be slid smoothly thanks to nylon wheels and steel tube rails. The structure of the sandpit and the cover is made of galvanised and powder-coated steel. It is designed with long service life and safety in mind. The side walls, cover, and seats are made of HPL material, which is chemically resistant, UV-resistant, non-toxic, recyclable, and shatterproof. This eliminates the risk of children being injured by sharp edges or fragments. The sandpit is supplied without sand as standard.

**Specifications**

The Sandpit 2 × 2 m with a cover VVZ-PD011-T is certified according to STN EN 1176
